Dear Ms. Smith,

This is to confirm that Governor Bush has approved your position to serve on the Service Area/8 Local Advocacy Council (LAC) as a Health Professional for Multi-Program Issues for a term beginning December 16, 2004 and term expiring December 15, 2008. Your LAC staff will process your identification card.

In accordance with Section 402.166 (2), Florida Statutes, if you have not already done so, you must complete the standardized training course for council members no later than three (3) months after the effective date of your appointment and your appointment is conditioned thereon. Please contact your LAC vice chair or area trainer for details concerning when this training is scheduled in your area.

Along with the other members of the Florida Statewide Advocacy Council (FSAC), I thank you for your interest in serving on this important council. Safeguarding the human rights of our citizens in cooperation with local and state agencies will serve to improve the quality of life for our citizens and the human service programs they require.

Again, congratulations!

Sincerely,
